## Sweden Yachts 340-891 / 1991

### Description

Every detail, from the shape of the hull to the design of the rig, works together as a harmonious whole, creating an unmatched yacht for serious sailing.

Sail and rig handling have been simplified to minimise effort and add more pleasure to the whole sailing experience.

This boat has the latest design sails from Ullman sails: Fiber Path sails.

Fiber Path sail will hold its performance shape 1 ½ to 2 times longer than a tri-radial sail.

The cockpit is ergonomically designed, giving the helmsman a relaxed, well-balanced environment even under really tough conditions in open sea, hard weather sailing.

### Key Fact's

Teak deck -2013

Propeller 3-bl (Bruntons Autoprop) -2018
